WOBA company

WOBA was created in 1999 in Łódź. The company's main scope of business is the manufacture and sale of products such as dishwashing pads, traditional mops, cloths, flat mops and sponges. Our products, thanks to their high quality and affordable price, have been very well received on the market, effectively replacing products imported from both Europe and Asia.

Our products branded by the buyer are offered in Poland and Europe in the largest retail chains such as Tesco, JMP, Lidl, Aldi, Kaufland, Carrefour, Rossmann, Lewiatan, Metro.

"Our ultimate goal is to meet our customers' expectations and thus we are ready to modify the manufactured products according to the individual needs of our customers."

- Dariusz Bagniewski, President of the Management Board

We would like to interest you in cooperation on the basis of our products and related assortments with the current presentation of our goods. According to your needs, we can offer you the best offer.

Dishwashing pads

METALLIZED DISHWASHING PAD

A gentle and effective kitchen dishwashing pad. Ideal for quick cleaning of teflon, pots, pans, copper wares, crockery, ceramics as well as synthetic materials.

The product does not damage the cleaned surface.

Composition:
metallized polyester yarn, polyester yarn, polyurethane foam

Dimensions:
11,5 x 7,5 x 3 cm

Colours:
silver, gold

UNIVERSAL DISHWASHING PAD WITH SILVER IONS

A gentle and effective kitchen dishwashing pad produced in nanotechnology with silver ions. Perfect for quick cleaning of Teflon, pots, pans, copper products, crockery, ceramics as well as synthetic materials. The antibacterial protection shows a strong antimicrobial effect against the most dangerous bacteria strain ESCHERICHIA COLI, reduces the growth of microorganisms at the level of 99%.

The product does not damage the cleaned surface.

Composition:
iris polyester yarn, polyester yarn, polyurethane foam

Dimensions:
11,5 x 7,5 x 3 cm

Colours:
green, pink, yellow, orange, blue, white

STRINGY DISHWASHING PAD

An effective kitchen dishwashing pad, perfect for cleaning heavily soiled surfaces. It is very good for cleaning Teflon, pots, pans, copper products, crockery, ceramics as well as synthetic materials.

Composition:
polypropylene monofilament, polyester yarn, polyurethane foam

Dimensions:
11,5 x 7,5 x 3 cm

Colours:
red, green, blue, yellow

Cloths

PERFORATED CLOTH 100% VISCOSE

A cloth designed for dry and wet wiping of surfaces of substantial weight. Perfect for washing and polishing. Made of specially perforated non-woven fabric which absorbs water and dirt perfectly.

Composition:
viscose 100%

Dimensions:
38 x 43 cm

Weight:
70 g/m²

Colours:
green

PERFORATED CLOTH 100% VISCOSE

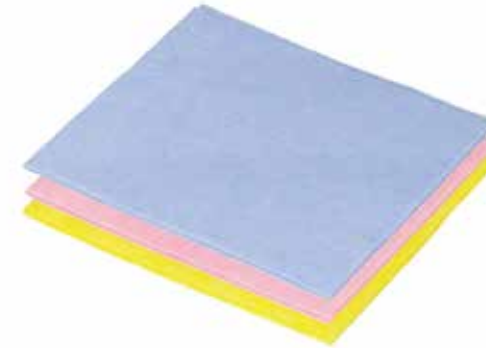

A cloth designed for dry and wet wiping of surfaces. Perfect for washing and polishing. Made of specially perforated non-woven fabric which absorbs water and dirt perfectly.

Composition:
viscose 100%

Dimensions:
38 x 41 cm

Weight:
50 g/m²

Colours:
blue, yellow

HOUSEHOLD CLOTH

Universal cloth designed for dry and wet wiping. Absorbs water and dirt well. Suitable for washing, cleaning and polishing.

Composition:
viscose 50%, synthetic fibers 50% or viscose 82% , synthetic fibers 18%

Dimensions:
32 x 38 cm or 36*36 cm

Weight:
85 g/m² or 100g/m²

Colours:
yellow, blue, pink

Cloths

MICROFIBRE CLOTH

The well-known and valued cloth for quick and effective cleaning of glass surfaces. It absorbs water very well and does not leave any streaks. It is ideal for polishing, washing, dusting and quick removal of excess water from the surface to be cleaned. An additional advantage of the cloth is that it dries quickly after squeezing. The cloth is very durable and useful in many applications.

Composition:
PES 55%, PA 45%

Dimensions:
38 x 40 cm

Basis weight:
100 g/m²

Colours:
green, blue, pink

SHARP CLOTH

A cloth designed for cleaning the toughest dirt on non-scratch surfaces and for cleaning vegetables from dirt and peel. A reusable product made of cotton and a non-toxic hardener approved for contact with food. Easy to rinse.

Composition:
Cotton + non-toxic hardener approved for contact with food

Dimension:
12 x 16 cm

Colors:
according to the recipient's needs

Traditional mops

VISCOSE MOP - WHITE AND BLUE PLAID

Mop made of regular viscose and polyester stripes. The structure of the non-woven fabric enables perfect dirt pick-up. Mop designed for cleaning wooden surfaces, floors made of granite, terracotta, marble and floor coverings.

Number of stripes:
32 or 40

Composition:
viscose 50%, polyester 50%

Length as specified by the customer

VISCOSE MOP - GREEN PLAID

Mop made of regular viscose and polyester stripes. The structure of the non-woven fabric enables perfect dirt pick-up. Mop designed for cleaning wooden surfaces, floors made of granite, terracotta, marble and floor coverings.

Number of stripes:
40

Composition:
viscose 50%, polyester 50%

Length as specified by the customer

MICROFIBRE MOP

A mop made of regular microfibre stripes. The structure of the material enables perfect dirt pick-up and simultaneous absorption of large amounts of moisture from the cleaned surface. The mop is designed for cleaning all types of surfaces.

Weight:
145 g

Composition:
100% polyester

Weight and length of stripes as specified by the customer

Traditional mops

PERFORATED MOP

Mop made of high-quality viscose-polyester non-woven fabric. Specially perforated non-woven enables effective dirt pick-up. The mop is designed for cleaning wooden surfaces, floors made of granite, terracotta, marble and floor coverings.

Weight:
100 – 160 g

Composition:
viscose, polyester

Weight and length of stripes as specified by the customer

SUPER ABSORBENT MOP

Mop made of high-quality SPUNLACE non-woven fabric. The mop is designed for cleaning wooden surfaces, floors made of granite, terracotta, marble and floor coverings.

Weight:
100 – 170 g

Composition:
viscose, polyester

Weight and length of stripes as specified by the customer

STRING MOP

A mop made of cotton-synthetic strings. The mop is designed for cleaning wooden surfaces, floors made of granite, terracotta, marble and floor coverings.

Weight:
100 – 270 g

Composition:
cotton, synthetics

Mop weight and length as specified by the customer

Professional mops

POCKET FLAT MOP

Durable and reinforced mop which picks up even the smallest particles of dirt. Perfect for cleaning porous and smooth surfaces. The mop is designed for both wet and dry usage. The use of special pockets with cut-outs enables easy assembly and use and the reinforced mop's sides ensure longer exploitation.

Composition:
polyester microfibre

Internal dimension:
12 x 42 cm

We can freely configure the fastenings, pockets, labels and logos, as well as material weight and dimensions according to customer specifications

FLAT MOP WITH HANDLES

Reinforced and very durable mop thanks to additional holders can be attached to special clips. Perfect for dry and wet cleaning. The mop enables cleaning both porous and smooth surfaces. High absorbent fibres are perfect for professional work. Additionally reinforced sides allow longer exploitation.

Composition:
polyester microfibre

Internal dimensions:
12 x 42 cm

We can freely configure the fastenings, pockets, labels and logos, as well as material weight and dimensions according to customer specifications

FLAT MOP WITH POCKETS AND OVERLAPS

Absorbent and durable mop perfect for professional use. Picks up even the smallest particles of dirt. Suitable for both porous and smooth surfaces. Can be attached to the frame through pockets and overlaps. Additional flaps make the mop fit many types of clips. Special pockets with cut-outs ensure easier assembly and use. Colourful ribbon enables separation of cleaned surfaces.

Composition:
polyester microfibre

Internal dimension:
12 x 42 cm

We can freely configure the fastenings, pockets, tags and logos, as well as material weight and dimensions to customer specifications

LOOP COTTON MOP

Loop structure enables cleaning even heavily soiled surfaces, perfectly collecting water. The mop is extremely durable in use, washable even in 90 degrees. Special pockets with cut-outs enable fitting it to many types of clips.

Composition:
cotton, synthetics

Inside dimension:
12 x 42 cm

We can freely configure the fastenings, pockets, tags and logos, as well as material weight and dimensions to customer specifications

Mops for household usage

MICROFIBRE FLAT MOP - ULTRA

The ULTRA microfibre mop is perfect for cleaning all surfaces which may be indented: terracotta, tile, unevenly structured floors. The interwoven polyester fibres with higher stiffness perfectly handle even the most difficult soiling. It can be used for dry sweeping and wet mopping. Effectively picks up dust and stubborn dirt.

Composition:
microfibre, polyamide

Internal dimensions:
10 x 40 cm

We can freely configure the fastenings, pockets, tags and logos, as well as material weight and dimensions to customer specifications

MICROFIBRE STRIPED FLAT MOP

The microfibre mop is suitable for cleaning surfaces which may have indents: terracotta, tile, uneven floor structure, as well as smooth surfaces: parquet and panels. Perfect for dry sweeping and wet mopping. The structure of various fibre lengths enables you to reach the indents on the surface and the use of polyamide fibres helps to clean even very soiled surfaces.

Composition:
microfibre, polyamide

Internal dimensions:
10 x 40 cm

We can freely configure the fastenings, pockets, tags and logos, as well as material weight and dimensions to customer specifications

FLAT MOP COTTON

Cotton mop created for cleaning all smooth surfaces: parquet, panels, PCV carpets. Enables effective dry and wet cleaning. Effectively picks up dust and washes away stubborn dirt. The kind of fibres used helps to clean the most difficult dirt.

Composition:
cotton, synthetics

Internal dimensions:
10 x 40 cm

We can freely configure the fastenings, pockets, tags and logos, as well as material weight and dimensions to customer specifications

FLAT SMOOTH MOP

Microfibre mop is perfect for cleaning fragile smooth surfaces (parquet, panels, PCV carpets). It is suitable for dry sweeping, wet mopping and cleaning walls or ceilings from dust.

Composition:
microfibre

Internal dimensions:
10 x 40 cm

We can freely configure the fastenings, pockets, tags and logos, as well as material weight and dimensions to customer specifications

Other

CELLULOSE SPONGE

Cellulose sponge, unlike traditional body sponges, differs in its natural origin of the raw material used for production. The sponge, thanks to its naturalness and high porosity of the structure, finds many applications. It can be used for body washing, make-up removal, spa treatments, but also for washing dishes and other surfaces that require cleaning without scratches. Due to its natural raw material, the sponge is a hypoallergenic and biodegradable product.

Composition:
cellulose 100%

Internal dimension:
Dimension specified by the customer

MAGIC SPONGE

Magic sponge effectively removes dirt without the use of chemicals. Suitable for almost any surface! It will perfectly cope with dirt at home, in the car and in industrial settings. Just a little water and traces of a pen, felt-tip pen, crayons can be removed easily. The sponge will also eliminate dirt and stains. It will clean upholstery, glass, plastic, flooring and other materials. After using, rinse and allow to dry.

Composition:
melamine

Internal dimension:
11 x 7 x 3 cm

Colours:
white, gray

BATH PUFF

The body washer is used during massage baths and peeling of the whole body. Thanks to its structure, it removes dead skin cells from the skin, which is easily washed out under a stream of water. A wide range of colors will easily meet every user's taste.

Colours:
green, pink, yellow, orange, baby blue, white

BATH SPONGE

Bath sponge with molet material. Suitable for washing and massaging. Designed to fit the hand perfectly.

Composition:
polyurethane foam

Internal dimension:
16,5 x 8 x 4,5 cm

Colours:
yellow, blue, green, pink, orange

Cooperation

The quick development of our company has caused that after expansion and modernisation it meets even the highest EU standards and enables us to look forward to further progress.

When developing export, we are most interested in finding large trade partners for a particular country who will be able to sell our products or offer them under their own brand to all possible distribution channels.

WE OFFER

Private label production

Products in a wide range of designs

Possibility to modify product parameters

Possibility to choose the type of packaging

Many years of experience and a wide machinery stock allow us to meet the expectations of even the most demanding customers.

Thanks to the high quality of our products, great knowledge and experience, we have become a market leader among manufacturers.

We maintain long-term business relations and cooperation with our partners.

WE GUARANTEE

1

High quality of goods

2

Consistent technical parameters

3

Reliable transaction management

4

Long-term cooperation

We are open to discuss new products and cooperation with new business partners.
